DISASTER PREPAREDNESS AND RELIEF PROGRAM – A MODEL FOR DISTRICTS

“To Protect and To Serve”

**Presented by the MD-4 Alert/Disaster Preparedness Chair
February, 2017**

Sample MD-4 Lions District Alert Disaster Preparedness Program

▶ INTRODUCTION:

- ▶ **The information** contained in this Power Point Presentation will cover the majority of the items and concerns you will need to address, create and implement a modern “District Alert/Disaster Preparedness and Response Program”.
- ▶ **Other resources** in the creation of, or the upgrading of your District Alert/Disaster Preparedness and Response Program can now be found on the MD-4 Website, to include additional information “sample” forms you can use for your program, copies of agreements, requests for LCIF Disaster Grants and related documents for your consideration.
- ▶ **Your MD-4 Alert/Disaster** Preparedness and Relief Program Chair is ready to assist your District or one of your Lions AREAS in training, helping to create or upgrade your District Alert/Disaster Preparedness and Response Program or to assist in helping to suggest or define Mutual Aid Assistance between Districts or Areas.
- ▶ **Our sincere hope** is that every Lions District will use a standardized model (as suggested) so that all 15 Lions Districts within our MD-4 will know, understand and be able to work within each other District’s Programs in the event of a large scale District Disaster requiring mutual aid assistance (from one or more adjacent Districts or Areas).

Sample MD-4 Lions District Alert Disaster Preparedness Program

- ▶ **RESPONSIBILITIES:**

Lions District 4-C4**

Sample MD-4 Lions District Alert Disaster Preparedness Program

The Disaster Preparedness and Relief program has been developed to generate a coordinated Lions Club volunteer response to a request for support from the American Red Cross. In an emergency situation caused by a natural or man-made disaster, the Red Cross may request assistance from the Lions Club volunteers to lend their support. Our duties will include assisting in the housing and comfort of the displaced, as well as in food preparation and serving of meals. The goal of this program is to provide the support and service requested by the American Red Cross during times of disaster.

SMCAAlert.info
San Mateo County's Community Alert System

Mobilizing our Lions Club volunteers in response to a call from the Red Cross requires a system that can provide immediate contact to our staff. The SMC Alert system is a county wide communication network which fulfills this need. All Lions Club volunteers who wish to participate in this Lions Disaster Program need to register their cell phones and e-mail addresses on this system to receive immediate notifications from the DPRP administrator. This call to arms will be in response to a request for assistance by the Red Cross and will be regional in nature. There are two methods of immediate communication: phone for short messages and e-mail for longer, more detailed information.

The Lions Club is truly a global club. With over 45,000 clubs and 1.35 million members, it is the largest service club organization in the world. The Disaster Preparedness and Relief program was designed to put the might of the Lions Club behind the humanitarian efforts of the Red Cross in times of regional disaster. Recent history tells us that we need to be prepared to respond to emergencies, both natural and man made. Our partnership with the Red Cross mandates that we prepare ourselves to support them when needed. All volunteers are required to attend classes to educate us on policy and procedure. The general classes are for Red Cross Orientation and Partner Shelter Training. Those involved in food preparation are asked to take a class on Safe Food handling. The classes for Orientation and Partner Shelter Training take no more than 5 hours. Consult the Face Book page, or contact us for dates and times for current training opportunities being offered.

"We Serve" is our motto. This program elevates our commitment to service to a new and higher level.

COUNTY OF SAN MATEO

Sample Lions District Disaster Preparedness Program

WHAT IS SMC ALERT ?

SMC Alert is a digital communication system used by governments, emergency management agencies and first responders to send emergency alerts, notifications and updates to civilian's e-mail or portable digital device. These include cell phones, pagers, Blackberrys, and PDAs. To receive emergency alerts, all you have to do is sign up for an SMC Alert account by visiting:

www.smcalert.info

WHAT IS THE COST OF THIS SERVICE?

The San Mateo County Sheriff's Office of Emergency Services is offering the SMC Alert System service free of charge. Note: Your cell phone carrier may charge you per text message received. The County of San Mateo does not assume responsibility for any costs charged to you by your carrier. Check with your carrier for billing concerns.

WHAT IS A SMC ALERT ACCOUNT?

All residents of San Mateo County, or people working for businesses located in San Mateo County may sign up for a SMC Alert™ account. You can add multiple devices (cell phones, pagers, PDAs) to a SMC Alert™ account. An alert will be sent to each email account, cell phone and other mobile device listed in your SMC Alert account.

You can sign up for multiple locations of concern – work, home, and school.

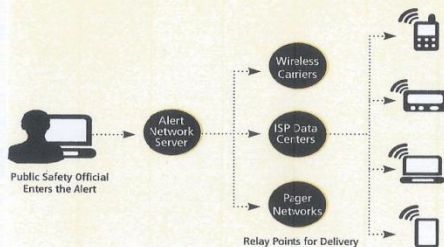

WHAT IS TEXT-MESSAGING AND HOW DO I SIGN-UP FOR IT?

Text messages are short messages sent to your phone, similar to receiving a page. Each message contains no more than 100 to 160 characters. An example of a text message is the notification you receive on your phone when you have new voice mail.

Most carriers activate the service automatically. You should check with your carrier to make sure your text messaging is active.

Alerts are delivered using the text messaging (SMS network) feature of your cell phone. It requires less time and bandwidth to send a text message compared to making a phone call. In past emergencies text messaging has continued to operate when voice communication has failed.

HOW DOES THE ALERT SYSTEM WORK?

In an emergency situation, an alert will be sent by San Mateo County authorized personnel and you will receive email notifications and text messages on your cell phone or mobile device. Read these messages promptly and follow the instructions.

Additional instructions may follow throughout the emergency situation so keep your device near you. Even though voice communications is down, text messages may still come through to your phone.

When you do receive an alert message, please follow the instructions on that message. Please do NOT call 9-1-1 or an emergency Communications Center as

they are already aware of the emergency — and your call will tie up precious resources, further complicating the emergency situation.

Follow-up alerts may be sent to update residents on a situation. Subscribers can select geographic groups based upon registration information; so if you reside in Burlingame and work in Menlo Park, you may include that information when you register to receive alerts for each city.

- ▶ **NEXT STEPS (Lions Districts, Lions Areas and MD-4)**
- ▶ **Your Lions MD-4 Disaster Committee** has created a general and basic standardized Disaster Preparedness Program that can be used by each District, knowing that each Lions District is unique. It can be found on the MD-4 Website.
 - Identify Primary and Secondary Disaster Preparedness and Response Organizations for Partnerships
- ▶ **Each District** should identify and appoint a single Lions Alert/Disaster Preparedness representative from each of the 4 MD-4 Areas to represent the Districts within their Area (I, II, III, IV).
- ▶ **The Lions MD-4 Alert/Disaster Committee** has re-configured our MD-4 Disaster Guidebook to take into account changes in grants, technologies, expanded communications, implement the concept of Mutual Aid for Districts, Areas and the entire MD-4, and standardize the duties and responsibilities that all Lions Support Volunteers should be performing in their roles during a Disaster by Lions Districts throughout the State.
- ▶ **Districts should identify their Alert/Disaster Preparedness Chair** and any Co-Chairs and have them register onto the San Mateo County SMCAAlert.info system.
 - Can provide a communications link through the MD-4 Alert/Disaster Preparedness Chair
 - Coordination from the MD-4 Alert/Disaster Preparedness Chair to our 15 Lions Districts and 4 Lions MD-4 Areas.

Sample MD-4 Lions District Alert Disaster Preparedness Program

- ▶ **NEXT STEPS (Lions Districts, Lions Areas and MD-4), cont'd**
- ▶ Request a presentation through the MD-4 Alert/Disaster Preparedness Chair for your Lions District and Lions Area Representatives
 - Help other Lions Districts during times when their own District **requires additional assistance and (or) resources** from other surrounding Lions Districts
 - Need for each of the 4 Lions Districts (in an AREA) to determine if they want to participate in the next step – but we all need to **be involved collectively if we want to be effective**
 - Need to be **prepared, trained in working with our primary partners, have a working knowledge of our individual responsibilities in a disaster, identify “robust” ways to contact and communicate** with our Lions Volunteers during an emergency or disaster, **identify the location and type/quantity of our Lions resources**, Lions Volunteer identification at a disaster scene, etc
 - There is **strength in numbers - Lions District’s Mutual aid** is a way to be as effective and efficient as we can during a disaster

Sample MD-4 Lions District Alert Disaster Preparedness Program

- ▶ **NEXT STEPS (Lions Districts, Lions Areas and MD-4), cont'd**
- ▶ **Each Lions District must create and manage their own program** and enlist “Best Practices” for use by other Districts, the 4 Lions Area Programs and throughout the State (MD-4)
 - Use the MD-4 Website for Direction (Program Information, Sample Forms, Power Point)
- ▶ Once established, suggest the **Disaster Preparedness Chairs (from each District) should meet to discuss their programs, discuss and establish a protocol for Mutual Aid and get onto each others notification systems**
 - Example 4-C6 can register with SMC ALERT from 4-C4 – NOW
 - This will immediately establish a Communications Link so other Districts know what's going on in the affected District(s)
- ▶ **Test your Area Programs – Mock activations** by each District and all Areas at least once a year to insure communications
 - Learn about your response call-out (day, night, weekends); Make adjustments, as needed
